Experience

Associate Software Developer | CLIMT IT Solutions

Dec 2024 – Present

- Architected and deployed full-stack MERN applications (multi-vendor e-commerce & CRM) serving 500+ concurrent users with 99.5% uptime.
- Designed scalable microservice architecture with Node.js/Express.js, implementing RESTful APIs with pagination, filtering, and sorting.
- Built and managed secure authentication and RBAC system using JWT access/refresh tokens, bcrypt encryption, and middleware guards; troubleshooted and debugged REST APIs with log analysis and testing tools to swiftly resolve production incidents.
- Optimized MongoDB performance with indexing and aggregation pipelines, reducing query time by 40%.

Systems Engineer | Infosys

Jul 2022 – Nov 2024

- Contributed to Virgin Media Connect, enabling customers to manage WiFi connectivity and related services.
- Implemented accessibility features aligned with WCAG standards, ensuring inclusive access for users with disabilities.
- Collaborated with cross-functional teams in Agile sprints, delivering features on time with clear documentation.
- Built responsive interfaces using React.js, Material UI, and SASS, ensuring cross-device compatibility and accessibility compliance.

Projects

Foodle | Food Delivery Web Application (MERN Stack)

- Developed backend with Node.js/Express.js and MongoDB, building RESTful APIs with response times under 400ms.
- Designed responsive UI using React.js and Bootstrap, ensuring consistent experience across devices.
- Integrated secure payments with Razorpay, implemented JWT authentication and RBAC, handling transactions securely.
- Managed scalable image storage/delivery via AWS S3; optimized media to reduce load times by 15%.
- Tested APIs with Postman; shipped with Git workflows, maintaining 95% test coverage.

Technical Skills

Languages:	JavaScript (ES6+), TypeScript, Java, SQL, NoSQL, HTML5, CSS
Frameworks/Technologies:	React.js, Redux, Next.js, Node.js, Spring Boot, Spring MVC, REST API, Spring Data JPA, Maven
UI Libraries:	Bootstrap, TailwindCSS, Material UI, SASS, Ant Design
Developer Tools:	Git, GitHub, VS Code, Webpack, Vite, Postman, Chrome DevTools, JIRA, SonarQube, Cloudinary, BrowserStack, Google Analytics, Google Tag Manager, Adobe Experience Cloud
Data Formats & Config:	JSON, YAML — 3 years experience in API serialization/deserialization and configuration management

Certifications

React JS Professional — Infosys

React JS Associate — Infosys

Education

Raghu Institute Of Technology

Bachelor of Technology — Mechanical Engineering (CGPA: 8.79)

Visakhapatnam, Andhra Pradesh, India

Jun 2018 – Jun 2022
